Summary

- Salesforce Developer proficient in designing, developing, testing, documenting, and deploying business solutions on the Salesforce platform.
- Apex & LWC Expertise: Skilled in developing Triggers, Apex Classes, and building modern, responsive UIs using Lightning Web Components (LWC), JavaScript, HTML, and CSS.
- Strong knowledge of Salesforce Object Query Language (SOQL) and Salesforce Object Search Language (SOSL).
- Proven experience integrating Salesforce with external systems using REST APIs and web services.
- Administration & Declarative Solutions: Experienced in user setups, profiles, custom objects, workflow rules, validation rules, Flows, and complex data transformations.
- Data Migration & Deployment: Skilled in data migration using Apex Data Loader and deploying solutions following Salesforce best practices.
- Salesforce Ecosystem: Up to date with Salesforce releases, governance limits, and skilled in upgrades to ensure system security and compliance.
- Hands-on expertise in Salesforce security model, role hierarchy, sharing rules, and maintaining data integrity.
- Strong analytical skills in Salesforce reporting, dashboards and reporting snapshots.
- Proven ability to leverage Salesforce CRM to streamline processes, enhance customer relationships, and drive organizational growth.
- Strong mentoring and communication skills to support team development and effective knowledge sharing.

SKILLS

- **Technical Skills:** Apex (Triggers, Batch, Schedulers), LWC, Aura, SOQL, SOSL, Flows, Test Classes, Security Model, Reports & Dashboards, Sales Cloud.
- **Integrations:** API Integrations (REST, JSON, XML, OAuth).
- **Deployment & Tools:** Visual Studio Code (VS Code).
- **Other Skills:** Java, HTML, CSS, JavaScript.

EXPERIENCE

Premium Learnings Ltd., *Pune, India*   03/2025 – Present
Salesforce Developer

- Developed and customized Lightning Web Components (LWC) and Apex Triggers to implement business logic and enhance user experience across multiple real-time projects.
- Built and optimized Flows to automate business processes in projects.
- Integrated Salesforce with external APIs to fetch real-time food and recipe data.
- Contributed to multiple end-to-end Salesforce implementations, gaining hands-on experience in development, testing, and deployment.

Tata Consultancy Services, *Nagpur, India*   08/2020 – 08/2024
Process Mentor

- Acted as Process Mentor for 4 years, onboarding and training 50+ new joiners, resulting in a 30% reduction in ramp-up time and smoother role transitions.
- Provided actionable feedback to team members, leading to a 15% improvement in performance metrics and boosting overall team efficiency.
- Conducted 20+ training sessions on tools, processes, and best practices, enhancing skill development and improving role readiness for 50+ team members.
- Automated dashboard publishing via email, cutting manual effort by 20% and ensuring 100% on-time updates for management and stakeholders.

EDUCATION

Nagpur University   Wardha, India
Master of Computer Applications (MCA)   2021 – 2023

Bajaj College of Science   Wardha, India
Bachelor of Science (Computer Science)   2017 – 2020

PROJECTS

Portfolio Builder

- Designed and deployed a Portfolio Builder application on Salesforce to showcase developer skills, experience, and projects in an interactive resume-style format.
- Tools Used: LWC, Apex (CRUD), Wire Adapters, Custom Objects & Fields, SLDS, Tabs & Accordions, Sharing & Profile Settings, and LWR (Lightning Web Runtime).

Recipe Finder

- Developed a Recipe Search application using LWC, enabling users to discover, manage, and explore recipes through seamless integration with external APIs.
- Tools Used: LWC, Apex (HTTP callouts with HTTP Request/HTTP Response), API Key–based integration, Custom Styling (CSS, SLDS, Static Resources), Trusted URLs, LWC Communication, and Experience Cloud site deployment.

Hotel Reservation Management Application

- Created and executed a Salesforce-based Hotel Reservation Management system that streamlines hotel search, guest management, and reservation tracking.
- Tools Used: Custom Objects & Fields, Flows, Apex (Asynchronous Apex, Imperative Calls), LWC (Conditional Rendering, Parent-Child Communication, Progress Indicator), SLDS, Track Decorator, and Lightning App Builder.

Body Fat Calculator

- Built a Body Fat Calculator web application in Salesforce using LWC to help users calculate body fat percentage based on input parameters like gender, age, weight, height, and body measurements.
- Tools Used: LWC, CSS & SLDS (styling), Custom Objects & Fields, Flows (email notifications), Static Resources, Lightning Data Service (Record Edit Form), LWC Directives, Experience Cloud (site publishing & guest access).

CERTIFICATIONS & AWARDS

Certifications: Salesforce Administrator, Salesforce Developer.
Awards: On-the-Spot, Feedback Enabler, Appreciation Certificate.
